

OPEN

Following UK Government guidelines, we have chosen to stay open during this period to support those, especially key workers, who are using cycling as a lower-risk mode of transport and/or as a form of exercise.

However it is important that you adhere to the following measures we have put in place.

SOCIAL DISTANCING MEASURES

Please **keep 2 metres** between yourself and **all other people at all times**, including whilst queueing.

Please knock, wait and **only enter when instructed to do so**. This allows us to limit numbers inside.

Please **avoid touching anything** where possible.

Please **use contactless payment** if possible.

THANK YOU
